INTRO

Poznań was founded over a thousand years ago on the Warta River, amidst vast forests. Today it is the capital of the Wielkopolska (Greater Poland) region and one of the Poland's largest city, located halfway between Berlin and Warsaw. At its heart is the picturesque Old Market Square. In addition to its rich history, parks, forests, as well as lakes and rivers await the city's visitors. They provide contact with nature and offer cool breeze, especially during summer.

Just a 20-minute journey by train or car from Poznań will take you to the Wielkopolska National Park. That's over 76 square kilometres of lakes and forests. Is that a lot? That's an area more than three times the size of Deira, the historic district of Dubai, which covers 22 square kilometres. And this is just the beginning of the adventure.

In this guide, we have gathered unique offerings for whole families. They are all located within about a two-hour drive from Poznań. Here you will find carefully curated attractions, hotels among the forests, often located in historic noble manors and palaces, as well as a variety of leisure activities and selection of instaworthy locations.

You can reach Poznań directly with Flydubai.

WHY POZNAŃ?

Craftsmen houses, Old Market Square

POZNAN TOP - 10

There are some things you can only experience or see in Poznan. You can find the most important of these right here:

- Visit the very place where Poland began. It's **Cathedral Island**, or Ostrów Tumski in Poznań. It features Poland's oldest cathedral and the tombs of Mieszko I and Bolesław Chrobry. You can see relics of the ramparts of a medieval castle, and explore the history of Poznan through games and multimedia in the **Porta Posnania** interactive centre.

Porta Posnania

POZNAŃ TOP - 10

- Taste the **St. Martin's croissant** and share it with your loved ones. It is Poznań's pride and a regional speciality protected throughout the European Union. You can learn its secrets at the Poznań Croissant Museum. And if you get hungry, try the local cuisine, both traditional and modern, prepared by talented chefs. It is worth mentioning that restaurants from Poznań made it onto the pages of the **Michelin guide in 2023**. Inspectors of the world famous red guide recommend 11 restaurants from Poznań, the third city in Poland to join the prestigious group of awarded cities. Their complete list can be found on visitpoznan.pl in the "Where to eat" section.

POZNAN TOP-10

- Drop in for an exhibition, a festival or just to visit the [Zamek Cultural Centre](#). It is located in the former seat of Emperor William II from the early 20th century. It is the youngest castle in Europe built for royalty! Its history, although rather short for a castle, is very rich.

Castle Cultural Center

- Learn to encrypt at the [Enigma Cipher Centre](#). It was young Poznań-based mathematicians who broke the secrets of the German Enigma back in 1932. You will learn about this history at the new education and science centre.

Enigma Cipher Center

POZNAN TOP - 10

- Spend time or do some shopping in [Stary Browar](#), a shopping centre that was voted the best of its kind in the world back in 2006. It is an icon of post-1989 Polish architecture, created in reference to the industrial architecture of a 19th-century brewery. It is worth seeking out its relics!

Old Brewery

- Take a breather! Perhaps at the [Citadel](#). This is Poznań's largest park - it covers more than 100 hectares (for comparison, Poznań's Old Town within medieval walls is about 21 hectares). There's Magdalena Abakanowicz's famous sculptural work 'Unrecognised', as well as relics of the former Prussian Fort Winiary, which the Citadel used to be. Or go to [Lake Malta](#) - only 2 km from the Old Market Square. There you will find the [Malta Thermal Baths](#), a large aquapark, a slope where you can go sledding in the summer, the [New Zoo](#) with its famous tigers and a unique city path in the treetops.

Citadel Park

POZNAN TOP - 10

- Take a trip on along the shores of Lake Malta! On special occasions, trains service the oldest operating steam locomotive in Poland. Malta Miniature Train runs along a 3.8 km route along Lake Malta's northern shore from Rondo Śródka to the New Zoo. The carriages are pulled among others by the steam engine Borsig from 1925.

Maltanka Train

- Stay longer and hop over to the Poznan countryside. Just outside the city limits, the Wielkopolska National Park begins, with its picturesque post-glacial landscape. Nearby is the famous castle in Kórnik and the palace in **Rogalin**. The surrounding park is home to the oak trees Lech, Czech and Rus - the latter is up to 800 years old and is probably the oldest oak tree in Poland.

Rogalin palace

POZNAŃ TOP - 10

- Get off the beaten track and visit the old districts of Poznań: **Jeżyce**, **Łazarz** and **Wilda**. There you will find Art Nouveau architecture, atmospheric alleys and local restaurants. There are also attractions such as the over **100-year-old palm house**, where you can take a trip to the tropics without leaving Poznań.

Palm house

- See the **billy goats** - it's simply a must, otherwise no one will believe you've been all the way to Poznań. They show up every day at noon and additionally at 3pm on the tower of the Renaissance Town Hall, one of the most beautiful monuments of its kind north of the Alps. Once you're here, take a look around Poznań's market square. You could spend all day among the colourful townhouses.

Billy Goats - the symbol of Poznań

You will find all the places listed, together with their location on the map, in our **Poznań Most Shortly guides**. For more inspiration, see the official tourist website of Poznań and the Poznań agglomeration **visitpoznan.pl**

CITY EVENTS

Birthday of street St. Martin, fot. Marek Zakrzewski

WHY POZNAŃ IS WORTH VISITING ON NOVEMBER 11?

In Poznań, November 11th - Polish Independence Day - takes on a very special form. One of Poznań's main streets - Święty Marcin Street - celebrates its name day.

A colourful parade merrily rolls through the city, with both locals and many tourists enjoying the world famous Saint Martin's Croissants. This exceptional holiday has become Poznań's trademark in comparison to other cities as well as a proof that such occasions can and should be celebrated not only in a formal way.

The main element is a cheerful parade marching through the street. Among the participants you can find Saint Martin himself and right behind him: orchestras, fire eaters, jugglers, acrobats, dancers and all the other strangely fun characters. At the end of the march, Saint Martin meets the President of Poznań to have the keys to the city handed. Then the crazy fun starts and market fills with handicraft, wine, food and, of course, Saint Martin Croissants.

The dough is semi french. The filling is made of white poppy seeds, orange peel, raisins, vanilla. The top is covered with thick glaze and nuts. If anyone wants to make them - needs the special certificate because the pastry is on the national heritage list. Even though can be found all year long, on this one day they tempt us on every step.

During the St Martin's celebration Poznań's bakeries and pastry shops sell as much as a few hundred tonnes of this delicacy.

SHOPPING

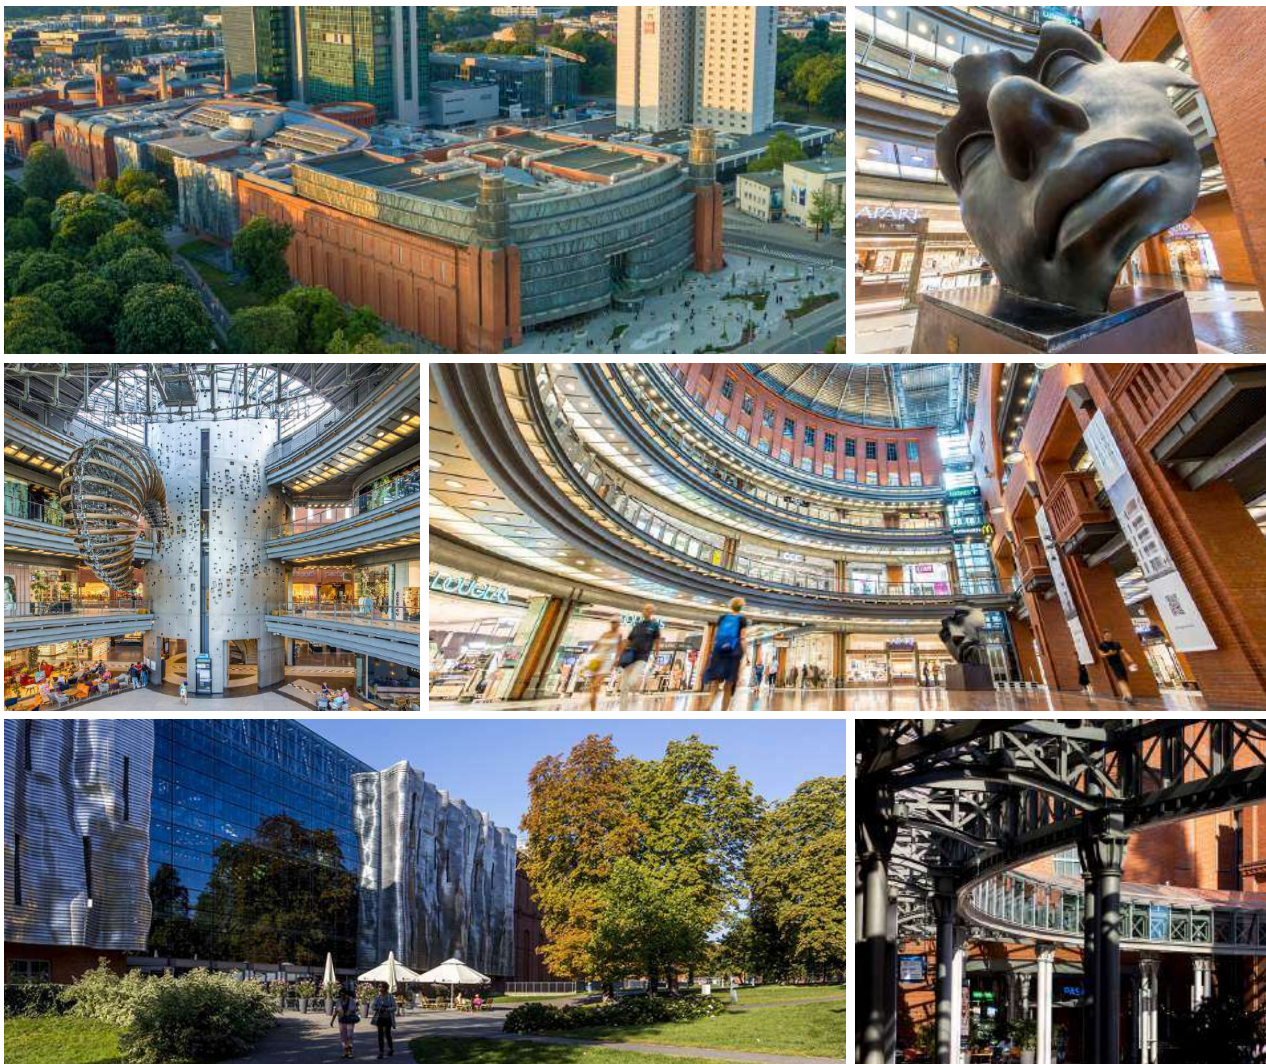

Old Brewery shopping center, main entrance

OLD BREWERY

Did you know that in Poznan you will find the best (yes, the best!) shopping centre in the world?

Discover Poznań's Stary Browar (Old Brewery). This represents an uncommon fusion of old architecture and modern design where history blends harmoniously and seamlessly with the present day. Elements of the brewery's 19th-century architecture are a constituent part of the modern interior. This contemporary complex, which goes by the name "Stary Browar Shopping Arts and Business Centre", quickly became a Poznań landmark and has been awarded no end of prizes. In 2005, it was awarded Best Shopping Center in the World in the medium commercial buildings category and "Best of the Best" among Central and Eastern European commercial buildings. Apart from over 200 shops, there are also beer gardens, dance clubs, a beautiful park, an art centre and a futuristic Blow Up Hall 5050 hotel here.

POZNAŃ

Poznań's new shopping behemoth swung its doors open in late 2016 in a style so lavish, even Eva Longoria couldn't keep away (yes, it's not everyday that random Polish shopping malls manage to invite A-list celebrities).

Inspired perhaps by the celebrated Stary Browar shopping complex, which manages to seamlessly blend retail space with creative contemporary art, Posnania collaborated with Pop-up Galerie 208 to integrate unique sculptures and installations into its layout. The most eye-catching of those is David Mesguich's *Lucie*, the sculpture of a little girl symbolising the future, located outside near the main entrance. Oh, and the shopping? They've got brands like Guess, Sephora, Pinko, and many more.

STOBNICA CASTLE

Stobnica Castle – what is this project about?

On the edge of the Notecka Forest stands a unique structure. With its towers and turrets, it towers over the forest and reservoir. Although there are rumours that it is located on an island, in fact Stobnica Castle is an island of itself.

The castle in Stobnica is more than 70 metres high and about 200 metres long. The structure comprises 15 storeys, each of which is equivalent to two standard storeys in a typical residential building in terms of height.

This unusual building and its environs are the result of work carried out by a group of people fascinated with castle architecture, who have created a residential building with an architecture that is so uncommon these days. An entire body of water surrounding the castle with a natural waterfront and numerous islands has also been created.

Let's visit and discover this extraordinary building!

THE LAND OF 100 LAKES AND THE STALLION DEPOT AT SIERAKÓW

A picturesque corner of Greater Poland.

The Sierakowski Landscape Park is also known as the Land of 100 Lakes. The name is not an exaggeration, as there is even more than a hundred lakes around!

This landscape was shaped by a glacier during the last glaciation, and its most spectacular element are the dunes, created by the sand carried by the melting glacier and later wind activities. In the southern part of the park, there are many moraine hills covered by deciduous forests, river valleys and deep post-glacial sills filled with picturesque lakes. The largest of those lakes is Lake Chrzypskie, but it is Lake Śremskie that enjoys the greatest popularity.

The Stallion Depot at Sieraków is the oldest herd of stallions in Poland, founded in 1827.

WIELKOPOLSKA ETHNOGRAPHIC PARK

Travel back in time to the 19th century to see how peasants lived in those days.

Imagine we travelled in time to the late 19th century. The place is a fully reconstructed village, including cottages, farm buildings, blacksmith's shop, church, windmills and even an inn. Wielkopolska Ethnographic Park is an open air museum, designed to look like a real village from the turn of 19th and 20th century. Most of the constructions are real old-timers, moved from other places in Wielkopolska. That includes not only the buildings themselves, but also furniture and other belongings – even some cute knick-knacks. The park is best to visit during one of the many events. Then the village comes back to life, with historical reenactors strolling the place, working in the workshops, making butter, baking bread or weaving clothes. Also, often there is a market, where you can buy traditional food, bio fruits and vegetables, hand-made decorations and jewelry or even home-made spirits.

PUSZCZA ZIELONKA LANDSCAPE PARK & THE TRAPPER CAMP

On the trail of adventure: extensive forests with a wide range of offers for outdoor activities

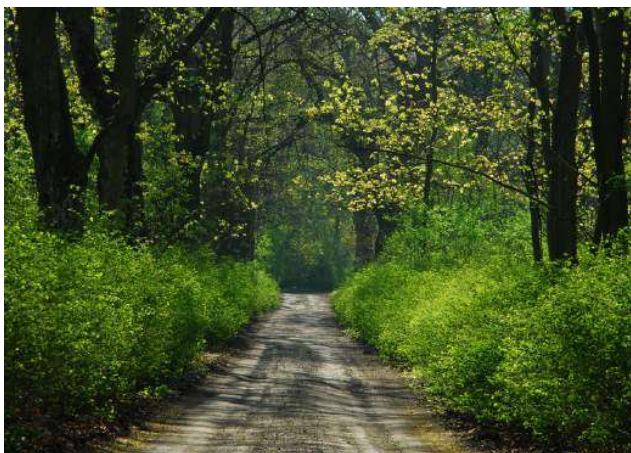

The Puszcza Zielonka Landscape Park is one of Poznań's two green lungs – the other being Wielkopolski National Park. Located north-east from the city, the area was shaped by a glacier during the so-called poznanian glacial, leaving behind moraine elevations and sills, the largest of which is today filled by Lake Stęszewskie.

The Trapper Camp is located on the verge of Puszcza Zielonka Landscape Park in Czerwonak municipality, a mere 15 kilometers north of Poznań. It is a very interestingly situated area with many farm tourism attractions, ideal for both formal company parties and team-building events. The facilities created specially for festive purposes are made exclusively from wood, which adds even more charm and allure to the space.
